All of our finish representations are provided as a guideline only. Although great care was put into photographing these finishes, it is likely that the actual finishes will vary to some degree from those above. This is due in large part to the inherent difficulties in photographing these highly reflective metal surfaces, as well as to differences between the various monitors and browsers that are in use, and to other factors that are beyond our control. As such, these finishes should not be considered to be exact representations of the actual finishes.
